

Mini-Trolley

The 23-foot Mini-Trolley from Specialty Vehicles is perfect for increased mobility around tight corners because of its smaller size. The Mini-Trolley can transport 14 passengers or less*, making it the first non-CDL trolley on the market (CDL laws vary by State).

Standard Options include: all steel construction, a fiberglass roof, one-piece fiberglass front engine access door, wood paneling, oak slat bench seats, brass stanchions, Altro flooring and more.

There are several ways to customize the trolley, with available options such as rear a conductor's platform, removable sidewalls, limo interior with perimeter seating, ADA accessibility, rear air conditioning, and exterior faux wood. The Mini-Trolley is a great addition to any fleet or as a standalone transportation solution.

Mini-Trolley Features

- Chevrolet G4500 Chassis
- 6.0L V8 Gasoline Engine
